

Take Your Digital Photos Beyond the "Ken Burns Effect"

Photo to Movie™ brings photos to life by adding motion using a powerful version of the "Ken Burns effect". You can add music tracks, voice narration, and a variety of slide-to-slide transitions. Export movies from Photo to Movie and use them in iMovie™, burn them to DVD, post them on the Web, or even email them.

"It's simple and does what it does better than any other." *Mac360.com*

"The bottom line? Photo to Movie is highly recommended!" *Luminous Landscape, Sept. 2005*
